

Catalyst Systems Inc

Why should I join CSI

- Pan American coverage with offices and training centers in New Jersey, Florida, and Pennsylvania.
- We provide career counseling; help identify training areas, provide training with certification and support with placement immediately after the training.
- Industry certified instructors for different training programs and highly sophisticated training labs.
- We provide a competitive edge when it comes to compensation and placement opportunities.

I am an international student. Will you provide me with work authorization?

Yes. Work Authorization will be processed for eligible candidates. For more information please speak with our career counselors.

How will I know what technology is good for me?

- Step one: We do a detailed education/skill/aptitude evaluation which might include an Aptitude test or a technical interview.
- Step two: We help you understand the market for the technologies that are in demand.
- Step three: Matching the result of your evaluation (step one) with training on the relevant technology.

Where are your training locations and what is the duration of the training programs?

- We have training centers in New Jersey Each candidate is given access to a standardized theoretical and practical project based curriculum at these sophisticated training centers.
- Training varies from 4 to 5 weeks; weekend or weekday programs; or a combination of both; A min of 8-10 hrs of self study is highly recommended.
- We provide you with a choice of centers; programs are standardized across all centers.

What kind of placement support will I get post the training?

- We have in-house projects to give you a heads up on the various technologies in use and also allow you to get hands on experience.
- You could be placed with our direct clients or through our implementation partners. We have large base of implementation partners covering most of the fortune 500 companies.

Do I have to enter into an agreement with CSI?

Yes. We need a commitment from you to be able to comply with the agreement we would have with our clients and implementation partners.

What kind of compensation can I expect?

- Starting Minimum salary of 50K USD per annum with periodic appraisals
